AGRICULTURAL CROP REPORT

DAVID T. RAYNER
AGRICULTURAL COMMISSIONER
• 227 N. First Street •
SAN JOSE, CALIFORNIA

Mr. William E. Warne
Director, California Department of Agriculture
and
The Honorable Board of Supervisors
of Santa Clara County

Gentlemen:

I herewith submit the 1959 Annual Agricultural Crop Report for Santa Clara County, which is in accordance with Section 65.5 of the Agricultural Code. This report covers the acreage, production and value of all major crops produced in Santa Clara County, including livestock and livestock products, nursery stock, cut flowers and seed crops.

This report shows the bearing and non-bearing acreage of fruits, nuts, and berries. Other crops are reported in actual harvested or bearing acreage. The prices reported are on a F.O.B. basis, and do not include the cost of production and marketing.

The 1959 total shows an increase in value of \$10,452,731 over the 1958 total value. The crops primarily contributing to this increased value were: apples, apricots, plums, prunes, walnuts, strawberries, cut flowers, and nursery stock. Increased production generally accounts for the increased value. A slight decrease in value of most vegetable, livestock, poultry, rabbits, and seed crops was due to lower production and prices.

This office has endeavored to prepare its Annual Crop Reports in a form and manner that would provide additional crop information for the assistance of persons interested in specific crop data. In this year's report, a conversion table on page 9 is included to aid anyone in specific crop determine the tonnage of most vegetables reported. Whenever possible, every effort has been made to prepare this report in conformity with the recommended form of the Bureau of Agricultural Statistics of the California Department of Agriculture.

I wish to express my thanks to the many individuals and organizations for their splendid cooperation by so willingly contributing the information which made the compilation of this report possible.

Respectfully submitted,

David T. Rayner
