RE: Enhanced Searchable On-line Provider Directory

DATE: May 24, 2024

Summary

As of April 17, 2024, the on-line searchable directory for Substance Use Treatment Services (SUTS) is live. As you know, the Mental Health on-line provider directory launched in August 2023. This enhancement to integrate SUTS with the web application used for the Mental Health Provider Directory will allow one central location for searching providers in the BHSD network.

The searchable directory provides flexibility to search by specific parameters, i.e. provider agency level, practitioner level, geographic location, and languages. It is encouraged that any professional or agency whose beneficiaries could benefit from SUTS services can now use the directory to make referrals ensuring close geographic proximity of SUTS treatment providers (including telehealth), appropriate language match for treatment and additional support services/resources.

The current 274 network adequacy report will be the source of data for the monthly updates to the provider directory. [Behavioral Health Services provider directories | Behavioral Health Services | County of Santa Clara \(santaclaracounty.gov\)](#)

In addition, the translated PDF versions of the directories are also available on the BHSD website. BHSD does not recommend that the directories are printed as they are frequently updated.

Two office hour sessions will be available to review the on-line provider directory. Please see schedule below:
