Russian has been added as an additional threshold language for our services. This update supports our commitment to providing accessible and equitable care to our diverse community.

Action Required: All contracted providers are required to translate their important documents into Russian. Please ensure the following steps are taken:

1. **Review Materials:** Identify any important documents, brochures, or informational materials that require translation.
2. **Translate Documents:** Arrange for the translation of these materials into Russian.

County/State-required documents will be translated and you may have access to them once the translations are complete.

Your prompt attention to this matter is essential to ensure that we meet the needs of our Russian-speaking beneficiaries effectively.

If you have any questions or need further assistance, please reach out to [BHSD DEI@hhs.sccgov.org](mailto:BHSD_DEI@hhs.sccgov.org)

Thank you for your cooperation and continued dedication to serving our community.
