Community Services and Support (CSS)

The CSS component is the largest of all five MHSA components. Funding is used to provide direct services to adults and older adults with serious mental illness and children and youth with serious emotional disturbance who meet the criteria set forth in Welfare and Institutions Code (W&I Code) section 5600.3.

The CSS component has the following service categories:

- **Full Service Partnership (FSP) Services**
- **Outreach and Engagement (O&E) Services**
- **General System Development (GSD)**

CSS also helps counties leverage housing funds in local partnerships to build and renovate housing units for individuals with serious mental illness who are homeless or at risk of homelessness.
