CROP REPORT

No. County

DAVID T. RAYNER
AGRICULTURAL COMMISSIONER

75 West St. James Street
SAN JOSE, CALIFORNIA

Mr. Charles Paul
Director, California Department of Agriculture
and
The Honorable Board of Supervisors
of Santa Clara County

Gentlemen:

In accordance with the provisions of Section 65.5 of the California Agricultural Code, I am submitting the 1960 Annual Agricultural Crop Report for Santa Clara County.

This report covers the acreage, production and value of crops produced in the County. The values reported represent the gross farm income, and do not reflect the net income to producers. Cost of production, harvesting, packing, and other handling costs should be deducted for a true farm value.

The total value of the agricultural crops of this county listed herein amount to \$91,303,510 for 1960, as compared to \$95,889,733 for 1959. Primarily, the decrease in farm value returns can be attributed to our change-over method of reporting livestock production in conformance with the suggested statewide reporting procedure. This provides that when animals are sold the values are based on the average net weight gained during the period of possession, rather than reporting on the total weight of the animals at the time of sale. Other reasons for the decrease of farm values are a reduction of vegetable acreage and lower prices paid for the commodities; the reduction of strawberry acreage; and subnormal yield of bushberries. These crops accounted for a decrease of approximately \$3,500,000. Although there was a reduction of approximately 3,500 acres of orchard land, fruits and nuts showed an increase of \$3,000,000 over 1959. In most instances, normal yields and better prices received are the reasons for the increase. Increased production and the establishment of more producers of cut flowers, nursery stock and seed crops in Santa Clara County contributed to the two and one-quarter million dollar increase of these items.

To the many individuals and organizations who so willingly cooperated in contributing the information necessary for the compilation of this report, I express my sincere thanks.

Respectfully submitted,

David T. Rayner
