**AGRICULTURAL  
CROP REPORT**

*No. County*

**DAVID T. RAYNER**  
**AGRICULTURAL COMMISSIONER**  
75 West St. James Street  
**SAN JOSE, CALIFORNIA**

Mr. Charles Paul  
Director, California Department of Agriculture  
and  
The Honorable Board of Supervisors  
of Santa Clara County

Gentlemen:

In accordance with the provisions of Section 65.5 of the California Agricultural Code, I am submitting the 1961 Annual Agricultural Crop Report for Santa Clara County.

This report shows the acreage, production and value of crops produced in the County. The reported values represent the gross farm income to producers. All values are reported in rounded dollars. The values indicated for most of the commodities reported are f.o.b. roadside, and do not include the cost of containers, packing, or hauling. Most of the vegetable values are an exception to this, and do include the cost of containers only.

The agricultural production and total value of the agricultural crops of the County in 1961 decreased \$12,055,610. from the preceding year. There were three major contributing factors for this decrease: First, a reduction of fruit and nut tree acreage for urbanization purposes; second, below freezing temperatures during blossom and fruit setting period; and third, two extremely hot spells during critical periods.

A.C.P. payments are not included in the gross agricultural production figures, but are given for information purposes.

I wish to express my sincere thanks to the many individuals and organizations who so willingly cooperated in contributing the information necessary to make this report possible.

Respectfully submitted,

*David T. Rayner*

DAVID T. RAYNER  
AGRICULTURAL COMMISSIONER

SANTA CLARA COUNTY
