AGRICULTURAL COMMISSIONER**

**75 West St. James Street
SAN JOSE, CALIFORNIA**

Mr. Charles Paul
Director, California Department of Agriculture
and
The Honorable Board of Supervisors
of Santa Clara County

Gentlemen:

In accordance with the provisions of Section 65.5 of the California Agricultural Code, I hereby submit the 1962 Annual Agricultural Crop Report for the County of Santa Clara.

This report shows the acreage, production and values of all commercial crops grown in the County. The values indicated for the commodities reported are based on the gross farm income to producers, and does not necessarily represent the net income received by the producer.

The total agricultural value reported for 1962, shows a decrease from the preceding year. This was due mainly because of a reduction of production acreage for urbanization purposes; adverse weather conditions during blossom and fruit setting period of apricots and cherries; and, lower prices paid for most of the commodities.

A. C. P. payments are not included in the gross agricultural value, but are only reported for information purposes.

After nearly thirty-seven years of service with the Santa Clara County Department of Agriculture, of which sixteen years were as commissioner, I have decided to retire. Therefore, in this, my final Annual Crop Report, I wish to take this opportunity to express my sincerest thanks to the many friends, individuals and organizations who willingly cooperated with me and my staff in contributing the information necessary to make all previous reports, and the 1962 report possible.

Respectfully submitted,

David T. Rayner
