

LEARN, LEAD, & SERVE as a **CADET** in the **CIVIL AIR PATROL**

Do you want to fly? Do you want to honor and serve America? Then rise to the challenge of cadet membership in the U.S. Air Force Auxiliary, Civil Air Patrol.

You'll find cadet life exciting if you enjoy:

- Flying
- Leadership Training
- Obstacle Courses
- Model Rocketry
- Teambuilding
- Hiking & Camping
- Earning Rank & Awards
- Search & Rescue
- Exploring Aviation Careers
- Making Friends

Questions?

How old do I have to be?

You must be at least 12 but not yet 19 to join as a cadet. CAP also offers opportunities for adults.

How much time do I have to commit?

On average, cadets meet one night a week for 2 hours and enjoy special events one Saturday each month. In summer, you can attend a week-long camp.

How much does it cost?

Annual dues and uniform expenses will total about \$100. Other fees may be required for weekend and summer events.

Are cadets required to join the military?

As a cadet, you are never obligated to join the military, but 10% of all Air Force Academy cadets got their start in CAP.

Who supervises the cadets?

Adult volunteers, fingerprinted and screened by the FBI, chaperone all cadet activities.

Benefits of Cadet Life:

- Develop leadership skills
- Test-fly potential careers
- Solidify your moral values
- Succeed in school

Civil Air Patrol

Citizens Serving Communities

CAP, the official U.S. Air Force auxiliary, is a nonprofit organization with more than 56,000 members. CAP is tasked by the Air Force to perform 90% of U.S. inland search and rescue missions. Adult volunteers also perform homeland security, disaster relief and counterdrug missions at the request of government agencies. Members play a leading role in aerospace education and serve as mentors to nearly 24,000 young people in CAP's cadet program.

Adult members range in age from 18 years and older, with no upper age limit. CAP has been performing missions for America for 75 years. Become a volunteer and be a part of CAP's legacy of service.

Here are just a few ways you can make a difference in CAP:

- Participate in aviation and ground search and rescue
- Mentor youth to help develop them into responsible citizens and leaders
- Provide disaster relief
- Inspire and teach children through aerospace education
- Provide critical civilian support to the United States Air Force as well as other federal, state and local agencies

GoCivilAirPatrol.com

How much does it cost?

Annual dues vary by state and range from about \$50 to \$80. Members are responsible for purchasing uniforms, plus expenses for activities, training and conferences.

Do members wear a uniform?

CAP members have the privilege of wearing a uniform. Your local unit can provide more information about what uniforms they require.

What is the time commitment?

Members volunteer as much time as they are able and willing to give. Members may meet as often as once a week or as little as once a month. Training, activities and some volunteer duties will require additional time.

I'm not a pilot; what will I do in CAP?

Most CAP members do not fly and participate in many other volunteer positions. Adult members work with youth, assist with search and rescue or complete administrative duties required to keep the unit running. Volunteer positions vary by location, so check with your local CAP unit for more information.

Am I considered a member of the military?

No. CAP members are civilians and under no obligation to the military.

Just a few reasons to consider joining CAP:

- Give back to your community through volunteer service
- Learn a new skill or gain experience
- Provide a positive influence on today's youth
- Enjoy the camaraderie and fellowship of other like-minded volunteers

Do I have to pay to fly?

Reimbursed flying is not available when first becoming qualified to fly in CAP. As a new member, you will be responsible for aircraft fuel and a flat maintenance rate per hour fee. This applies to the instructional flights one should have prior to taking the flight evaluation to become a CAP Pilot, the flight evaluation itself, and all flying after that until becoming mission qualified. Once qualified as a Transport Mission Pilot, you will be eligible for reimbursed flying during scheduled training and actual missions. This may not be enough flying to maintain FAA currency or personal proficiency so additional out of pocket expenses could be incurred to maintain proficiency. Other opportunities to participate in reimbursed flying occur when you qualify as a Search and Rescue/Disaster Relief (SAR/DR) Pilot or Cadet Orientation Pilot.

I'm not current on my instrument rating, is that a concern?

To join, your instrument currency is not an issue, however, once you qualify as a mission pilot it will be important to have your instrument rating current as some missions require an instrument rating.

Will I be required to perform other volunteer duties besides flying?

In addition to your responsibilities as an aircrew member, most members train and serve the local squadron in one of the 27 specialties that it takes for each squadron to function. The main areas are divided into operations, logistics, communications, administration, and marketing/public relation specialties. These are referred to as our Professional Development tracks. Also included in professional development are a series of courses in leadership and organizational management that prepare you for grade/rank promotions.

CIVIL AIR PATROL

Flying as part of the CAP team:

- Large fleet of single-engine aircraft
- Search and rescue missions
- Disaster relief
- Counterdrug
- Homeland security
- And much more

GoCivilAirPatrol.com

CAP owns the largest fleet of single-engine piston aircraft in the nation, primarily Cessna 172s and 182s, and CAP pilots are able to fly those planes to perform CAP missions in service to their local communities.

CAP pilots fly reconnaissance missions for homeland security, search and rescue, disaster relief, as well as counter-drug operations at the request of local, state or federal agencies. When not flying traditional emergency missions, qualified pilots fly orientation rides for Civil Air Patrol cadets, Reserve Officer Training Corp cadets, teachers and to maintain their own flying proficiency.

CAP aircraft are located at strategic locations throughout the nation to be readily available when missions arise. Not all CAP locations have an assigned aircraft; be sure to ask your local squadron about their flying opportunities.

How do I become a CAP Pilot?

If you do not meet the minimum qualifications to be a CAP Mission Pilot, you may be eligible to qualify as a CAP Transport Mission Pilot (TMP; see qualifications below). If you require more experience to become a CAP TMP, you are limited to checking out in the local aircraft and maintaining your personal and FAA currency at your own expense.

The general qualifications to become a CAP pilot are:

1. Be an active CAP member at least 17 years of age (16 years of age for CAP glider pilots)
2. Possess a valid FAA private, commercial, or airline transport pilot certificate.
3. Possess a class III or higher medical certificate (not required for gliders)
4. Possess a current flight review IAW FAR 61.56
5. Satisfactorily complete a CAP flight check

CAP Transport Mission Pilot (TMP)

During authorized Emergency Services missions, CAP Transport Pilots may transport CAP members, ferry aircraft, fly "high bird" communication sorties, and transport parts or equipment needed for missions.

Requirements to qualify as a TMP:

1. Be at least 18 years of age
2. Be a current and qualified CAP pilot in accordance with CAP Regulation 60-1
3. Have at least 100 hours of PIC including at least 50 hours of cross-country flying
4. Complete CAP's General Emergency Services training requirements.

CAP Search and Rescue/Disaster Relief Mission Pilot (SAR/DR)

Upon qualifying as a CAP Pilot and attaining at least 175 hours of PIC, with 50 hours of cross-country, one can start training to become a SAR/DR Mission Pilot.

Requirements to qualify as a SAR/DR MP:

1. Qualified Transport Mission Pilot,
2. At least 200 hours pilot in command time and 50 hours of cross-country flying
3. Qualified Mission Scanner.
4. Complete all requirements listed in the most current version of the Aircrew and Flight Line Task Guide for Mission Pilot.

What kind of time commitment will this require?

The time commitment required is dependent upon your individual situation and motivation. Most CAP squadrons meet an average of two hours each week, with a special/training activity one to two weekends a month.

Can I use my own plane?

In general, the vast majority of reimbursed mission flying is accomplished in CAP aircraft. There are a few opportunities for members to fly their own aircraft in support of CAP. If members fly missions authorized by the Air Force, they must sign a "Hold Harmless" agreement.

What kind of costs are there?

CAP members pay annual membership dues that vary by state. You can find the dues for your state by contacting a local CAP squadron or by going to www.cap-members.com/dues. You will also need to purchase any required uniform items.
