GISHUB – GIS Data Repository

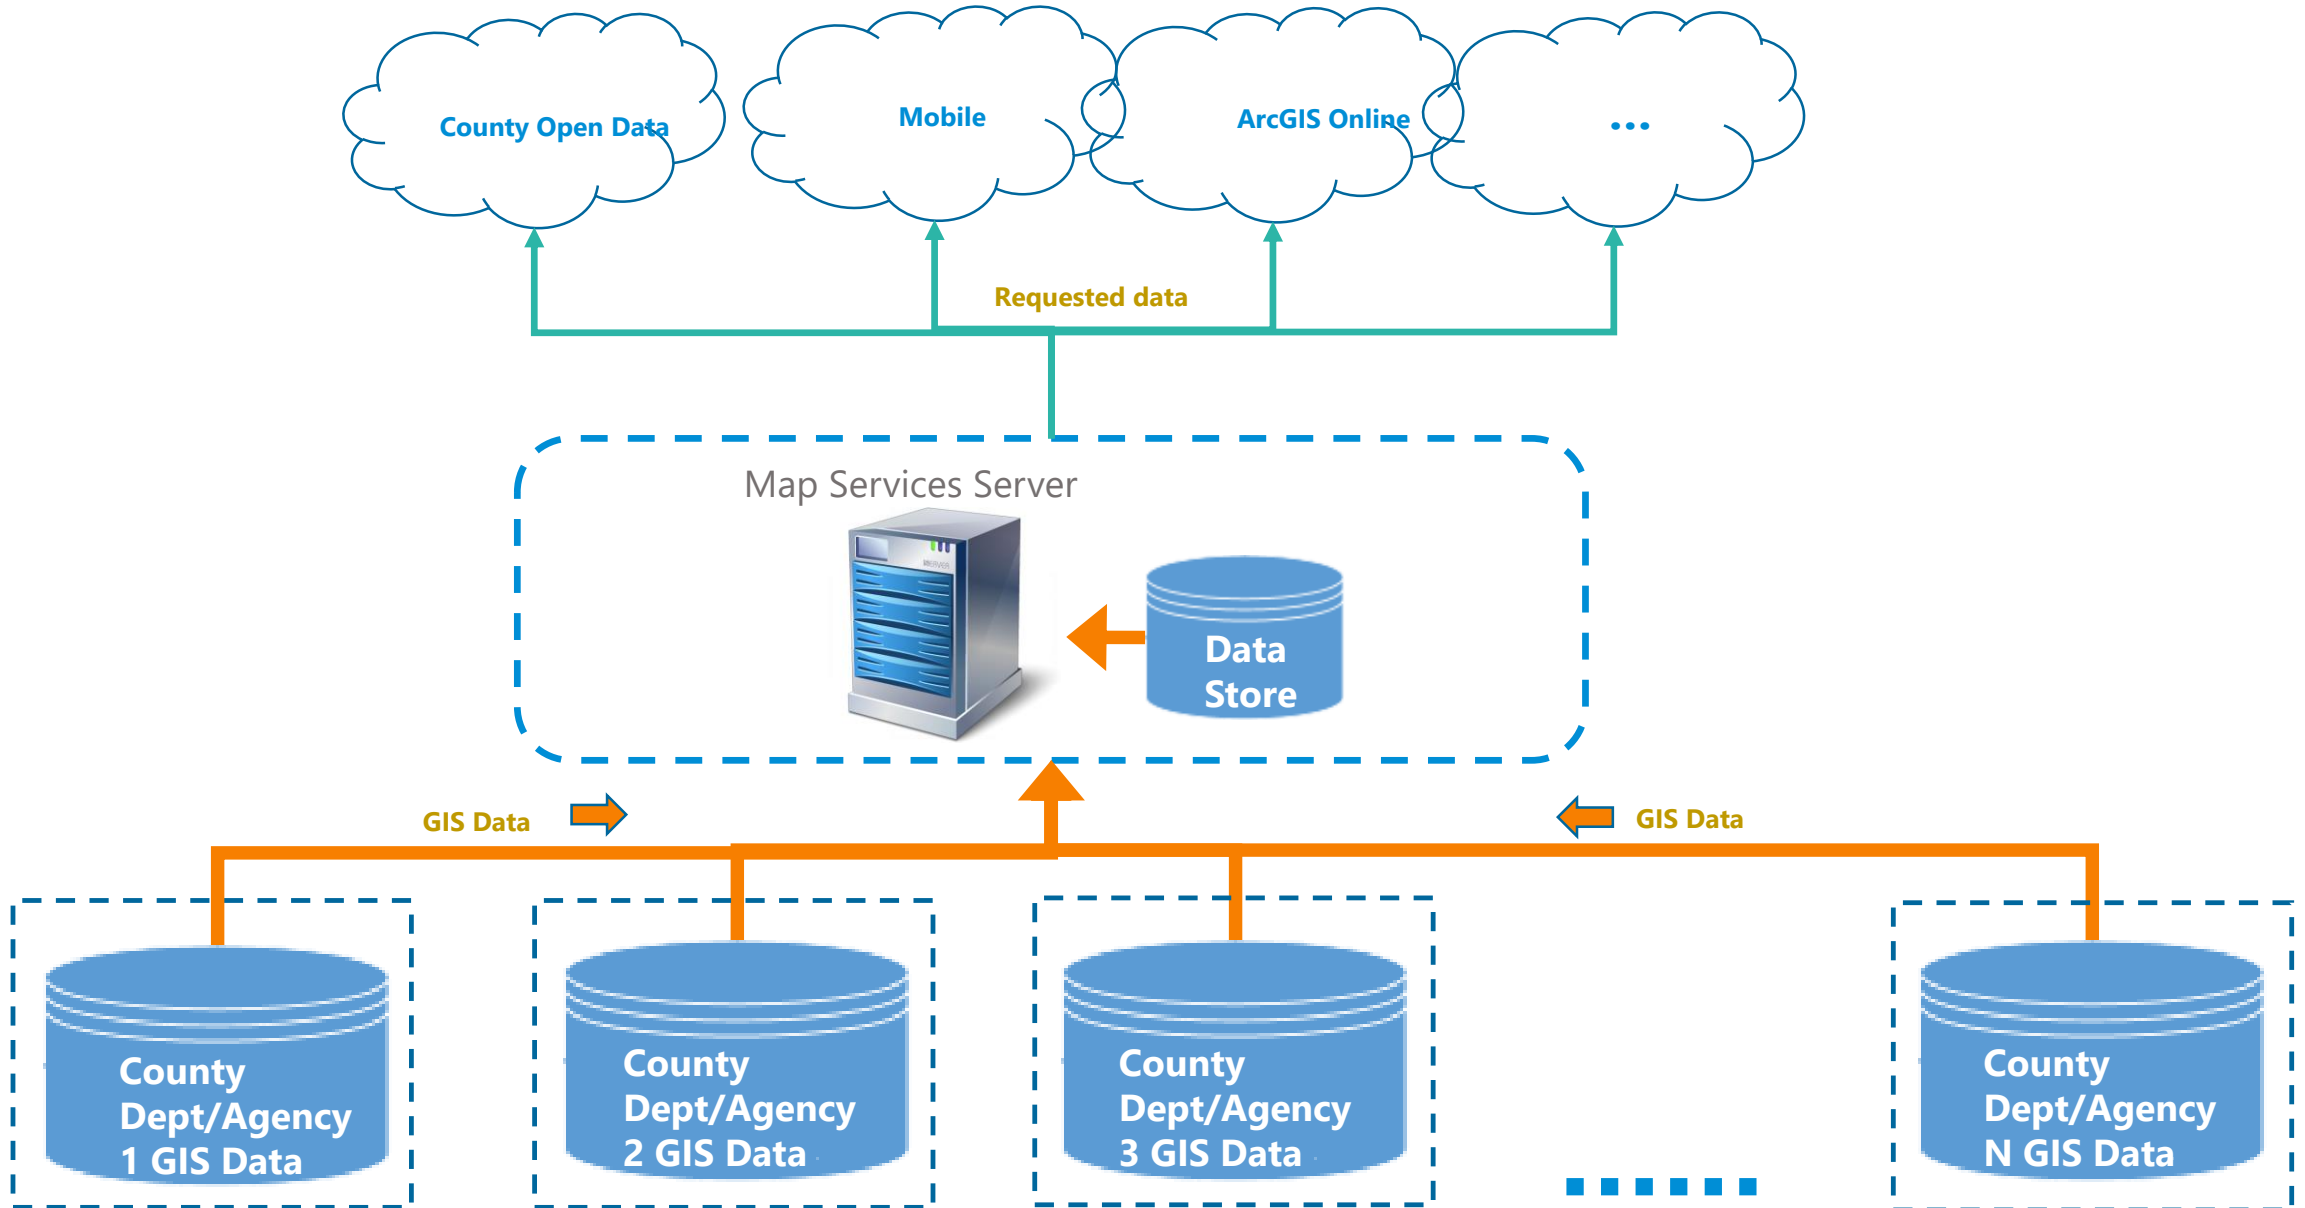

11/13/2019

GISHUB Background and Objectives

- Platform for sharing the County's **GIS data** with the **public**
- **Single data repository** where public can search, consume, or download all publicly available GIS data provided by the County organizations.
- Initiated by the County Enterprise GIS Steering Committee and tasked to the GIS Data Working Group.
- Currently, it is operation ready pending final review and approval before go-live.

Santa Clara County GISHUB Environment
